Education

Marri Laxman Reddy Institute Of Technology
Bachelor of Technology Computer Science

Hyderabad,Telangana
GPA: 8.94

Technical Skills:

- **Languages:** Python, SQL, Java, C, MySQL
- **Frameworks:** FastAPI, HTML, CSS, JavaScript
- **Version Control:** Git, GitHub
- **Soft Skills:** Communication, Problem Solving, Analytical Thinking, Decision Making, Teamwork, Adaptability

Projects:

FinRecon AI | *Python, FastAPI, React, Pandas*

GitHub: [FinReconAI Repo Link](#) Live Demo: [finReconAI](#)

- Built an AI-powered platform that automates financial transaction reconciliation, identifies unmatched records and discrepancies, and reduces manual reconciliation effort by 70%.
- Developed FastAPI, REST APIs for reconciliation, exception analysis, match-rate reporting, and natural-language financial queries.
- Built and deployed a full-stack application with React frontend and cloud-hosted FastAPI backend.

IntentFlow — AI-Powered Decision Journey Engine | *Python, FastAPI, Vue.js*

GitHub: [IntentFlow](#) Live Demo: [IntentFlow](#)

- Built an AI-powered platform that analyzes user behavior and contextual signals to identify user intent and provide adaptive guidance, targeting a 15–20% improvement in meaningful user engagement
- Implemented behavioral analytics, intent classification, confidence scoring, and responsible engagement logic to improve session quality and meaningful conversion.

Cryptocurrency Trading Bot – Binance API | *Python, Git*

GitHub: [TradingBot](#)

- Built an automated cryptocurrency trading bot in Python to analyze market data and generate trading signals.
- Implemented technical indicator-based trading strategies and automated trade execution logic.
- Integrated risk management mechanisms, including stop-loss and position sizing.

Experience

Skill Nexis

6 Weeks | 2026

Web Development Intern

Virtual/Online

- Completed a 6-week virtual internship focused on web development fundamentals.
- Developed and styled web pages using HTML and CSS, focusing on structure, layout, and responsive design.
- Used JavaScript to add basic interactivity and dynamic functionality to web pages.
- Practiced building and improving web pages through hands-on assignments and projects.
- Gained practical understanding of frontend development, web page design, and client-side scripting.

Certificates

- Oracle Certified Foundations Associate – Agentic AI | Oracle University | Aug 2026
Gained hands-on experience building an Agentic AI prototype that integrated LLMs and NLP, reducing concept-to-demo time by 30%.
- Programming in Python | Cisco March 2023
- Java Programming| SimpliLearn

Extra Curricular Activities:

- Participated in Zignasa Hackathon and Pravaha, collaborating with teams to design and implement innovative solutions.
- Participated in FEG Innovation Hackathon 2026 at T-Hub, Hyderabad, developing IntentFlow—an AI-powered decision journey engine for intent-aware user guidance and session quality optimization.
